校長的話

學校發展新方向：

重品德 勤學問 嚴而有愛

感謝天父對聖匠小學的眷顧，感謝天父給我們學校師生的鼓勵——在我任職聖匠小學一年之後，學校開始擴班了！今年九月，學校已經有兩班一年級了！

在過去的一年裏，在聖匠堂和家長的支持下，我和老師們可以全心全意地埋首工作，努力提升學校效能：

(一)家校合作方面

歡迎家長直接與校長及老師們聯絡，加強溝通——把學校的優點強化，把學校的不足之處揭示出來，改正過來。

(二)校風方面

經過一年的時間，同學們在儀容清潔和行為舉止方面有了顯著的改善；在新的一年，我期望同學們在氣質上也有所提升。

(三)學業方面

去年，學校初步提升了對同學的要求；今年，對低小同學——學校會著力幫助他們適應小學生活，再提升各科成績表現。對中、高年級同學——努力進行補底和提中的工作，尤其是英文科方面的支援。目標——希望同學們都能建立自動自覺學習的良好態度。

(四)學生支援方面

善用政府撥款及義工支援，開辦星期六、日英文加強班，全校課外活動及補習班免費，發展學生多元潛能。

「教養孩童，使他走當行的道；就是到老他也不偏離。」——就是我對聖匠小學的期望和目標，對孩子們的祝福！

Some of the most inspiring people in my life were my teachers. I believe great teachers not only teach a subject well, but also motivate students to endeavor to understand and to love learning. This is how I strive to teach English. I try to give students skills, strategies and confidence in their English ability, so that they will not only use English in the classroom, but they will have confidence and proficiency to apply their English outside of the school walls.

I believe it is vitally important to understand that each student is unique and valuable. Every person has a unique way of relating to the world and of facing challenges placed in front of them.

It is my mission to understand the learning needs of each student and to create an environment where they are stimulated and enjoy the learning process. I try to do this by incorporating diverse teaching strategies into my lessons, so that I can cater for various individual learning needs. I do this by including whole class, group and individual components in a lesson. I also strive to foster creativity, co-operation and initiative within students, so that they can have the self-belief and analytical skills to deal with whatever challenges they may face.

Miss Peggy Lam

My teaching philosophy is rooted in my goal to effectively teach all my students and instill in them a love of learning. I want my students to understand that learning should take place not only in the confines of the classroom, but throughout their everyday lives. I strive to help them become life-long learners and to seize their own opportunities to gain knowledge.

I am an enthusiastic educator who places a large emphasis on differentiation. Understanding that each child is unique and that students learn in different ways, I believe it is essential for educators to differentiate our lessons to better meet the needs of our students. This can include scaffolding, preparing different lessons for students, and adapting whole group lessons for diverse learners. I also support that building positive rapport with students is essential for trust to be gained and thus, learning to thrive.

I continue to improve my own teaching by engaging in careful reflection. This allows me to think critically about what works and what doesn't. Then, I am able to adapt my own teaching to better meet the needs of my students.

Miss June Lau

Teaching is meaningful

It's meaningful, not only because teachers play a crucial role in developing children's intellectual skills. It is also meaningful that teachers help nurturing children's moral and interpersonal behaviour.

Teachers act like a model for the children. What teachers say and act can ultimately insert a great impact on the children's personal development. I believe that every child is unique; it is vital to help them explore their strengths and talents as well as indoctrinate them with right values and attitudes. Hence, being a teacher is my glory as I am granted with this opportunity to influence my students positively. To accomplish it, adopting interactive teaching approaches and frequently communicating with my students are always my teaching norms.

Children are our future! It is pride that I can devote myself to getting them contributed to our society.

喜歡孩童的純潔與稚嫩。十九年教學一線的歷練，使我逐漸成長為充滿愛心的智慧型教師。

記得，一位特級教師曾說「一個老師需要傾心澆灌的除了桃李的種子之外，還有那些小草或灌木的種子，只有當你耕耘過的土地沒有一粒種子被埋沒、被冷落，那才是教師的真正驕傲和自豪！」十九年的教學之路，我辛勤耕耘在數學教學這片沃野上，用凝練、雅致、智慧的語言傳遞着教育的信息，把母愛般的關懷、微笑與溫馨帶進了課堂，將執著、踏實、好學、奉獻融入了工作。我堅信，學生們也許長不成參天大樹，但是，即使他們只是一株小草，或是一朵不知名的野花，也一定會對生活充滿感激、充滿熱愛，充滿生命的靈氣！

「路漫漫其修遠兮，吾將上下而求索！」我將用生命之光照亮每個孩子的心靈，指引每個孩子的方向，滋潤每個孩子的成長，在教學的天空中讓每一個孩子綻放出生命的光彩！

在大學讀書時，我一直都希望能夠成為一個學校社工，今年我很幸運地能夠實現這個目標。

現今社會，兒童的問題與日俱增，但社工是否只是解決問題呢？當然解決了當前的問題很重要，但其實學生的健康心靈才是我最重視的。透過輔導工作、個案、小組、工作坊及活動，我希望學生能夠學習努力面對自己的成功與失敗，將來過著更有意義的生活，同時擁有健康的心靈，積極面對各種挑戰。而我亦致力於學生的各方面成長，在當中，我也與他們一同成長。

作為社工，我們深信每個人都是獨特的，每位學生都有自己的特色及優點，他們有時用自己的方法去表達自己的需要，如果我們能先以學生的需要出發，明白及包容他在行為問題背後之需要。以學生的可愛之處去了解他們，我希望在學校的日子能夠協助學生發掘他們的潛能。
